PROFILE SUMMARY

Passionate Information Technology graduate (2026) with strong knowledge of **Java**, **OOP concepts**, and **Spring Boot**. Experienced in developing **RESTful APIs** and **backend applications with SQL** and MongoDB. Possess good problem-solving skills and a strong foundation in software development. Seeking an entry-level Java Developer role to contribute to application development and enhance technical skills.

TECHNICAL SKILLS

- **Programming:** Java (Core Java, OOP), Python, JavaScript (ES6+)
- **Web Technologies:** HTML5, CSS3, JavaScript, React.js, Node.js, Express.js
- **Databases:** SQL, MongoDB, PostgreSQL
- **Frameworks & Libraries:** Spring Boot, Flask, Scikit-Learn, JWT
- **Tools & Version Control:** Git, VS Code
- **Concepts:** Object-Oriented Programming (OOP), REST APIs, Backend Development, Responsive Web Design

INTERNSHIP EXPERIENCE

Web Development Intern May 2025 – Jun 2025

Kottravai, Tenkasi

- Contributed to the development of a responsive e-commerce web application.
- Assisted in frontend development and backend integration for product and order management.
- Ensured smooth checkout flow and supported testing of **30+ transactions**.
- Collaborated with the team to debug issues and improve application performance.

PROJECTS

StudentInfo CRUD REST API

Tech Stack: Spring Boot, MySQL, Swagger

- Developed **RESTful CRUD APIs** using Spring Boot for managing student information.
- Implemented layered architecture (Controller, Service, Repository) for clean code separation.
- Integrated **Swagger OpenAPI** for API documentation and interactive testing.
- Connected MySQL database using Spring Data JPA for efficient data persistence.

Online Quiz Application

Tech Stack: React, Node.js, Express.js, MongoDB, JWT

- Developed a **real-time quiz platform** with user authentication and category-based questions.
- Designed and implemented **REST APIs** for quiz management and result processing.
- Implemented backend logic to handle quiz evaluation and data storage efficiently.
- Integrated MongoDB to manage user data, questions, and scores.

Course Recommendation System

Tech Stack: Python, Flask, Scikit-Learn, Explainable AI

- Developed a **machine learning-based recommendation system** using Python.
- Built backend APIs using the Flask framework for seamless data flow.
- Implemented **collaborative filtering** to analyze student learning patterns.
- Applied **Explainable AI (XAI)** techniques to provide transparent and interpretable recommendations.

EDUCATION

B.Tech in Information Technology Sep 2022 – May 2026

Ramco Institute of Technology | CGPA: 7.91

HSC – 76% | SSLC – 82% (2019 – 2022)

CERTIFICATIONS & TRAINING

- **Java Full Stack Certification** (Core Java, OOP, Web Technologies) – Wipro TalentNext, 2025
- **Introduction to MongoDB** – MongoDB University
